KAPTAIN S.A.

No1 GREEK uPVC WINDOWS INDUSTRY

Kaptain s.a is a European progressive industry established in Greece, which commenced its activities in 1990 specializing in the field of U-PVC doors & windows and in 2001 invested in an automated production line in its privately owned 55000 m² premises within a production area of 6000 m², situated in Avlida region. In January 2016 Kaptain incorporated the newest technology in production, by completely changing the production line with a state of the art automated machinery, to improve production, to have more efficiency and higher quality, thus setting up the requirements for the future generation of doors and windows. Kaptain doors & windows are made under strict German standards, utilizing the highest quality in raw material, provide guarantees and are certified from the best institutes in Germany, providing CE and international standard certifications.

Kaptain is an active player in the worldwide exports market. Thanks to the big product range, the manufacturing flexibility and the fast delivery time, Kaptain has created a network of partners around Europe, Africa and Asia that trust in the high quality that is consistently provided for every project it takes. Using automation, all products are being carefully packaged and shipped to any destination and can be found in many countries from Europe to Australia.

Kaptain's goal is to be the choice of people who want products that stand out of standard
